

## DISPATCHES CENSORED.

### MANY THOUSANDS OF MEN ARE OUT

#### THE RIOT VICTIMS BURIED THIS MORNING.

#### PEOPLE'S ATTITUDE MENACING.

By Tonight Two Hundred Thousand  
Men at Brussels Will Probably  
be on Strike.

Brussels, April 16.—The strike continues to spread among the miners and workmen of all classes, and should the statements of the socialists prove true this evening will see close to 200,000 men out. Today the socialists intend to make a formal demand in the chambers for universal suffrage, and as their demand will doubtless be set aside, it is feared that serious results will ensue. There are at present 139,000 men, in round numbers on strike. The government is censoring all telegrams.

Brussels, April 16.—The funerals of two citizens who were killed in the riots occurred this morning in a driving rain.

The parents of the deceased and 1500 friends including socialist leaders, followed. A corps of gendarmes surrounded the hearse. The remains were entombed without religious ceremony. A relative of the dead man pronounced an inoffensive oration. The second funeral was that of M. Boulard who was shot while passing the scene of the disturbance. His cortege was composed of 300 friends. The services at his grave were not so socialistic as those at the tomb of Filvez. The only incident occurred when the family placed on the grave a garland inscribed, "An Innocent Victim."

The police forbade the parents depositing the garland, and seeing other garlands similarly labeled they seized all, despite protests and muttered threats.

The two bodies were placed in a long trench, fifty feet by eight, giving the ghastly suggestion of room for more. The crowd quietly dispersed and returned to the city. The attitude of the people throughout the city is menacing and the slightest spark may precipitate a catastrophe. Gendarmes and forces of cavalry are patrolling the streets. The strike has spread throughout the country. In accordance with the government's desire all the convents in this city are praying for the restoration of order.

Charleroi, Belgium, April 16.—Strikers today set fire and destroyed the Courcelle glass works, with a loss of 500,000 francs.

#### TRANSPORTATION OF TROOPS.

San Francisco, April 16.—The transport Thomas has arrived with 1800 discharged members of the Third Infantry and provisional companies from Manila. The transport Sherman sails today for Manila with recruits and supplies.

#### IDEALS OF LIFE.

Purity, O., April 16.—Judge E. M. P. Brister, of Newark, will lecture in the town hall in this place on Thursday evening, April 24, on the subject, "Ideals of Life." There will be no admittance fee and all are cordially invited to attend.

## STUDENT

Was the Assassin of Russia's Minister  
of the Interior—Further Details  
of Shooting.

St. Petersburg, April 16.—The Minister of the Interior, M. Siplaguine, was shot by an assassin yesterday afternoon as he was in the dispatches yesterday. The wounded man died at 2 p. m.

M. Siplaguine was on his way to attend a meeting of the committee of ministers. He had just entered the office of the Imperial Council when the assassin, who had driven up in a carriage, approached and handed him a folded paper, saying he had been charged to deliver it by the Grand Duke Sergius.

## CABINET IS CALLED

### TO CONSIDER COMMUNICATION FROM BOERS

#### THE PREMIER LATER VISITED KING EDWARD.

#### A HITCH IN PEACE PROPOSALS.

The Situation No Longer Inspires the  
Same Confidence as a Few  
Days Ago.

London, April 16.—The Cabinet was hurriedly summoned to meet at the foreign office this morning. Politicians generally believe that a hitch has occurred in the peace negotiations. The Exchange Telegraph says the meeting has been called to consider a further communication from the Boers which arrived yesterday evening.

After the cabinet meeting Premier Salisbury visited King Edward.

The report of a hitch in the peace negotiations today caused consols to fall 11-16 per cent.

London, April 16.—A serious hitch, the Daily Mail understands, has arisen in connection with the peace proposals.

The Cabinet at its meeting Monday, from which only Earl Cadogan and Lord Ashbourne were absent, considered a strong request by the Boer leaders at Pretoria for an armistice during the progress of the negotiations. This was absolutely refused, and in the opinion of all conversant with the circumstances, rightly so.

It was not, there is reason to believe, supported by any of His Majesty's advisers.

Despite this, however, it is not expected the refusal will cause the withdrawal of the Boer leaders from the conference.

There is another and more serious matter which has produced what threatens to form an obstacle to any further negotiations, if not a complete deadlock.

This is the question of amnesty and the banishment proclamation. The Boer terms raise two points which it seems the Cabinet declines to accept.

The instructions sent Lord Milner do not, it would seem, place the latter Cape rebels on the same footing as the Burghers as regards an amnesty, nor is there any apparent official inclination to withdraw the banishment proclamation.

On these points, unfortunately there is no reason to anticipate the Boer leaders will give way, although it is unquestionable that they would give way in minor points at issue in return for specific conditions.

The situation therefore, no longer inspires the same confidence as to a satisfactory issue of the negotiations which was felt a few days ago.

A very short time will prove whether there is any way out of the difficulty.

#### A NEW TRUST.

Chicago, April 16.—The manufacturers of copperage stock will form a \$20,000,000 trust to freeze out small competitors, absorb plants and regulate the output.

#### SYMPATHY

For the Boers Expressed by the House  
—Democratic Leader Offered the  
Resolution.

Columbus, O., April 16.—The House devoted 15 minutes today at noon listening to Field Cornet Vil Journe of Cape Colony defend the Boers and denounce Great Britain for the war in South Africa. Mr. Brumbaugh, Democratic leader, sprung a little surprise on the Republicans by introducing a resolution expressing sympathy with the Boers. With Vil Journe present as the guest the Republicans did not care to vote no and many of them sat silent while the resolution was adopted.

#### CARNEGIE'S GIFTS.

New York, April 16.—It is announced that Mr. Carnegie will give Union College \$40,000 and Columbia University a million.

## VICTORY

### Claimed by Christian Scientists in the Jennie Speed Case—Jury Dis- missed by Judge.

#### Concord, N. H., April 16.—The second trial of the case of Mrs. Jennie V. Speed against Rev. J. C. Tomlinson first reader of the First Church of Christ (Scientist), of this city, to recover for alleged malpractice has come to an unexpected end. The plaintiff alleges negligence in treating her for appendicitis. After three witnesses had testified regarding the treatment given Mrs. Speed by Tomlinson, which in brief, consisted in having the patient read certain parts of Mother Eddy's book, "Science and Health, With Key to the Scriptures," the plaintiff rested.

Mr. Streeter for the defense, refused to put in any testimony and moved that the Court direct a verdict for the defendant.

Attorney Hollis agreed that the plaintiff was entitled to recover on the ground that the defendant had not used reasonable care and skill. He quoted at length from opinions in various cases against a clairvoyant and other practitioners of that character, claiming that they were analogous to the case on trial, showing that the methods in practice employed were against public policy.

On the count alleging fraud Mr. Hollis argued that the case was entitled to go to the jury for them, to find whether or not the plaintiff had been deceived when she accepted treatment from the defendant. Narrowed down, he said that in accordance with the ruling of the Court the case should go to the jury to determine whether Mrs. Speed had been treated by Christian Science methods.

At the conclusion Judge Peaselee granted Mr. Streeter's motion and dismissed the jury from further consideration of the case.

Mr. Hollis excepted and the action will be transferred to the Supreme Court.

The case was tried in October, 1901, and resulted in a disagreement of the jury. The decision of Judge Peaselee is regarded as a victory for the Christian Scientists.

#### Hanna Signs Bond.

Washington, April 16.—E. G. Rathbone, the convicted Director of the Cuban mail service, will not stay in prison while his appeal is pending. Senator Hanna has received word from Havana that the unsigned bail bond he had sent down was satisfactory, and would be approved when he returned it duly executed.

Those who think Hanna's efforts will lessen his chances for the Presidential nomination, and are therefore anxious to have him drop Rathbone, are not likely to succeed. When asked whose name is to appear on the bail bond the Senator said his would be the only one. He had not asked anyone to go on the bond so as to keep his name off it. He said he was not ashamed to avow his belief that Rathbone is innocent.

#### Crime 20 Years Old.

El Paso, Texas, April 16.—Berhard Cordova has been indicted here for the murder of Thomas Merrill and his young bride who were killed over 20 years ago. The crime was one of the worst ever committed in this country. Robbery was the motive.

#### KILLED HIS WIFE

Springfield, Mass., April 16.—In the disguise of a woman Bernard Whitehouse, a house painter, entered the Highland Hotel last night and murdered his wife by shooting her in the head. He also shot an employee, who tried to protect her, in the hand. He made his escape.

#### Charged With Kidnaping.

York, Pa., April 16.—Francis L. Erney of Frederick, Md., was arrested here on the charge of kidnaping the five children of John Ford, and in default of bail was remanded to jail to await the requisition papers from Maryland. It is said that Mrs. Ford deserted her husband and Erney kidnaped the children. Ford has been looking for Erney for some time and finally located him here. The wife and children have not as yet been located.

## GEN. SMITH TO BE TRIED

### INVESTIGATION OF ALLEGED BARBARITIES

#### WATER CURISTS MUST ANSWER FOR TORTURES.

#### GENERAL CHAFFEE INSTRUCTED

To Spare No Effort in Running Down  
the Charges and in Pushing the  
Prosecution.

Washington, April 16.—As a result of the consideration by the cabinet of the charges of cruel treatment of Filipinos by United States soldiers, Secretary Root has made public a letter from Senator Lodge, referring to testimony of Sergeant Charles S. Riley, and Private William Lewis Smith, late of the Twenty-sixth Infantry, before a Senate committee. The secretary says:

"The war department will be glad to receive the earliest practicable information of any further evidence which may be elicited by the committee, tending to fix responsibility upon any one in the military service of the United States for any violation of the laws of war or of the regulations and orders governing the operations of the army of the United States in the field."

Then is given an order to Adjutant General Corbin to forward to General Chaffee at Manila, which refers to previous orders to investigate charges made by Governor Gardner of Tayabas province, of "cruelties practiced by troops on natives, and generally of an insolent and brutal attitude of the army toward natives." The order continues:

"Further instructions in both matters are required by the following facts:

"Press dispatches state that upon the trial of Major Waller, of the marine corps, testimony was given by Waller, corroborated by other witnesses, that General Jacob H. Smith instructed him to kill and burn, that the more he killed and burned the better pleased General Smith would be; that it was no time to take prisoners, and that when Major Waller asked General Smith to define the age limit for killing, he replied 'everything over 10.' If such testimony was given, and the facts can be established, you will place General Smith on trial by court-martial."

"Yesterday, before the Senate committee on Philippine affairs, Sergeant Charles S. Riley and Private William Lewis Smith, of the Twenty-sixth volunteer infantry, testified that the form of torture known as the 'water cure' was administered to the 'dante' of the town of Igharras, Iloilo province, island of Panay, by a detachment of Eighteenth United States Infantry, under command of Lieutenant Arthur L. Conger, under orders of Major Edwin F. Glenn, then captain of the Twenty-fifth Infantry, and that Captain and Assistant Surgeon Palmer Lyon, at that time a contract surgeon, was present to assist them. The officers named or such of them as are found to be responsible for the act, will be tried therefor by court-martial."

"Conger and Lyon are in this country. Both the Twenty-sixth volunteer infantry and Eighteenth infantry, having returned to the United States, and most of the witnesses being presumptively here, the secretary of war directs that Major E. F. Glenn, Twenty-fifth Infantry, be directed to proceed to San Francisco and report to the general commanding the department of California, with a view to his trial by court-martial, under charges alleging the cruelties practiced by him upon a native of the Philippine islands at Igharras, on the 27th of June, 1900."

If you can discover any witnesses still in the service in the Philippines, who can testify in support of the charges, or if Major Glenn desires the attendance of any persons now serving in the islands as witnesses for the defense, you will direct them to proceed to San Francisco for that purpose."

"The two years allowed for the prosecution by the statute of limitations is nearly at an end, no time is

## VOTE TAKEN IN SENATE

### ON THE CHINESE EXCLUSION BILL TODAY

#### SOME TROUBLE IN SECURING A QUORUM.

#### SENATOR TURNER, WASHINGTON

Declared He Had Followed the Repub-  
lican Party Long Enough—Made  
a Stirring Address.

Washington, April 16.—On this, the day for taking a vote on the Chinese exclusion bill, the senate met at 10 o'clock, two hours earlier than usual, in order to give Senators who desired an opportunity, to discuss the measure.

At 1 o'clock this afternoon the Senate began voting on the Chinese bill and all the pending amendments. It is admitted by both friends and opponents of the measure that the Senate is pretty evenly divided. The best available information is that instead of adopting the bill that was prepared by the Pacific coast representatives, the Senate will pass a measure which will continue, until the abrogation of the existing treaty with China, the provisions of the present law prohibiting the entrance of Chinese, with the addition of some administrative features to make evasions of the law more difficult.

Only half a dozen Senators were in their seats when the routine business had been disposed of, and the exclusion bill had been laid before the senate.

Mr. Turner of Washington, took the floor to reply to what he claimed was a personal assault made upon him yesterday by the Senator from Wisconsin.

Mr. Culberson suggested the absence of a quorum and the roll was called. Forty-five senators were required. At 10:20 o'clock there had been only 33 responses, and at 10:30 only 38. At 10:40 there lacked three of a quorum. The galleries were well filled and the spectators appeared to relish the attempt to get the Senators together. Five minutes later a quorum was announced and Mr. Turner proceeded.

Mr. Turner declared that he had followed the Republican party as long as he could, and far longer than he ought to have done. He followed his conscience. He did not believe that when he left the party all virtue had ceased to exist in that party. He said he felt no bitterness toward the party of Lincoln and Grant, but declared that if those great men could return to earth they would fail to recognize any of the principles for which they stood in the Republican party of today. He asserted that the party preferred the dollar to the man; that it was opposed to the principle of human rights and that it was gross and material in all its instincts. He insisted that the party had so little regard for the principles of liberty that at this moment it was attempting to drown in a sea of blood a friendly principle of struggling independence.

Announcement is Made That There  
Will be No Corner—Morgan is  
to Arbitrate.

New York, April 16.—The Louisville & Nashville situation which had hung menacingly over wall street for a week or more, has been cleared by the undisputed statement that John W. Gates and his associates had wrested control of the property from the Belmont party and were in absolute possession. Accompanying this statement which had been discounted the day before, was one that the Gates faction had selected J. P. Morgan & Co to settle the differences between the contending interests.

Shortly before noon the announcement was given out by the brokerage firm of Harris, Gates & Co., in which John W. Gates is a special partner, that control of the stock had been bought and there would not be a corner. The stock was acquired, it was stated, as an investment.

## CODE BILL

### Will Not be Enacted into a Law This Year—Dies of Its Own Weight.

#### Columbus, O., April 16.—The municipal Code bill is dead. The work of the Code Commission (Edward Kibler, of Newark, and Hugh Pugh of Columbus), the State Bar Association and two General Assemblies is practically wasted and the city and village politicians are triumphant. The bill, it may be said, died of its own weight. It was so large and attempted to cover so much ground that it collapsed of itself. The friends of the measure tried ineffectually to save it by demanding an extra session of the General Assembly to consider it alone, which, in itself, was a confession of the weakness of their cause. While final action was not taken on the bill yesterday, it is certain that today will see the end of the municipal reform movement this session.

The bill was reported to the House by Chairman Guerin, of the Revision Committee, on yesterday afternoon with the statement that that body found it impossible to revise the measure within ten days, and asked to be relieved of it. Mr. Cain, of Noble, moved that the Speaker appoint a committee of five members to correct the errors in the bill, engross it and report to the next General Assembly. Mr. York of Ottawa, vehemently objected. He advised to make it a special order for an adjourned session of the General Assembly.

Chairman Comings of the Municipal Affairs Committee, the putative author of the bill, confessed that the bill was in bad shape, and asked until today to determine what should be done. Mr. Smith of Cincinnati, a member of the committee, said that the bill was in worse shape than at the start, and was hopelessly jumbled, with over 400 amendments awaiting action.

Cain's resolution for an adjourned session was indefinitely postponed. Today Mr. Comings will move to retire the bill from the calendar. Its future is uncertain and it is scarcely probable that a general code bill will ever again be introduced.

#### COL. C. B. ADAMS.

Columbus, April 16.—Colonel C. B. Adams who recently resigned the office of assistant adjutant general to accept the superintendency of the Boys' Industrial School at Lancaster, will not leave Columbus for several days. His resignation took effect yesterday, but he will remain here to assist his successor, Major Harry M. Taylor.

In a recent duel between shore artillery and floating guns at Gibraltar the result was decidedly in favor of the coast batteries.

## A DAY'S NEWS IN THE COURTS

### MRS. E. S. SNELLING ASKS FOR ALIMONY.

Case of Newark vs the B & O Argued  
and Submitted to the Cir-  
cuit Court.

A petition has been filed in the Common Pleas Court by Hattie Snelling against Edward S. Snelling, in which the Peoples National Bank is made a party defendant. Plaintiff recites that she and the defendant were married in September, 1888; that five children were born; that she has been a faithful wife; that defendant abandoned her and went away and lived with one Ida Lohr. That in February, 1902, he returned to his family, and remained a part of the time until the latter part of March, 1902, that defendant again left his home with the said Ida Lohr, to parts unknown to the plaintiff. That the defendant took all the money that he had with him. The bank is made a party to reach certain notes. Plaintiff asks that she be allowed reasonable alimony. J. B. Jones is her attorney.

### In Circuit Court.

The case of the City of Newark vs. the B. & O. R. Co., et al., was argued and submitted to the Court this morning. The action was brought to restrain the defendants from interfering with the grade of the tracks across Second street in this city. Phil B. Smythe and Frank A. Bolton on behalf of the city; Kibler & Kibler on behalf of the defendants.

Albert C. Korzenborn vs. Charles F. Bingham; Judgment of dismissal. Smythe & Smythe; Daugherty, Hunter.

### Foreman of Grand Jury.

The American-Tribune said on Tuesday that N. C. Brown, Sr., who is the present foreman of the Grand Jury, is the first Republican foreman of a Grand Jury that has been appointed for years. This bit of news will make W. H. Stegried, of Croton, and his friends smile, as that gentleman, who is a Republican, was foreman of the Grand Jury for the January term of 1900. Judge Jones always aimed to appoint good men regardless of their politics.

### Coroner's Verdict.

Coroner Evans has just rendered a verdict in the Holcomb case by finding that Mr. Holcomb was killed by Pan Handle train No. 20 and that the engine gave no signal at Williams street; also that the train was running at too high a rate of speed.

### Realty Transfers.

Fourteen transfers of real estate were left at the Recorder's office on Tuesday for record, aggregating \$22,910.

### Marriage Licenses.

J. R. Platek and Ethelda Myrtle Hupp  
John Livingston and Florence McCann.

### Donovan Released.

Tom Donovan, who escaped from the city prison on March 25, after having served only two or three days of a 60-days sentence, was arrested Tuesday by Officers Kergiebel and Kennedy. This morning he was taken before Probate Judge Taylor by

Sheriff W. H. Anderson, Jr., on a writ of habeas corpus, sued out by his attorneys, Smythe & Smythe, and the court ordered his release, on the grounds that the Mayor had kept no docket.

### Court Notes.

J. Howard Jones has been appointed administrator of the estate of the late John E. Hughes, of Newark township. Bond \$500.

Mary L. Jones has been appointed guardian of Willie C. Jones and Harold G. Jones, minors. Bond, \$1200.

### Real Estate Transfers.

### Control of L. and N.

New York, April 16.—J. P. Morgan & Company have secured control of the Louisville & Nashville railroad company. George W. Perkins, one of J. P. Morgan's partners, made this announcement shortly before midnight last night.

### CARPENTERS STRIKE.

Indianapolis, April 16.—The carpenters of Indianapolis went on a strike this morning. They ask 37½ cents an hour, an advance of five cents. Seven hundred men are out.

It is rumored that William F. Chamberlain of Dayton, Ohio, who is a graduate of Denison University, is to remove to Quincy, Ill., to take charge of a branch factory of the Battle Creek Breakfast Food company.

Mrs. Julia Tobey, an aged lady, is quite sick at the home of her daughter, Mrs. Fanny Staggers on Burn Vista street.

## JOHN F. FOLLETT DIES SUDDENLY

BROTHER OF JUDGE FOLLETT OF  
THIS CITY

And a Former Newark Resident Pass-  
es Away—Was Stricken With  
Pneumonia a Week Ago.

Hon John F. Follett, brother of Judge Charles Follett of this city, died about 9 o'clock Tuesday night at his home on Alexander avenue, near Marion avenue, Clifton, at Cincinnati. Judge Follett had been seriously ill of pneumonia since last Wednesday. On that day he became dangerously ill at his office and was removed to his home. Thursday he became unconscious and his family gathered about his bedside, the worst being expected, but he rallied and it was believed would fully recover. Tuesday he was much better until shortly after supper, when there suddenly came a change that brought death.

Judge Follett was of old New England stock, his ancestors being prominent in the affairs of the country during the revolutionary and colonial days. The dead jurist was born in Vermont, but when he was quite a young boy his father moved with his family to Licking county, Ohio.

After graduating at Marietta College at the head of his class in 1855 he taught in the Columbus Asylum for the blind for a year and was then made principal of the Columbus High school.

While teaching he started the study of the law, and completed it in his brother's office at Newark, Ohio. He was admitted to the bar in 1858, and became a law partner of his brother, Judge Charles Follett. In 1862 he married Miss Frances D. Dawson.

He was elected a member of the Ohio Legislature for two terms. During his second term he was made Speaker of the House. He resigned from the Legislature in 1868 and went to Cincinnati. Since that time until he was stricken he actively engaged in the practice of law in Cincinnati except for two years during which time he represented the First District of Ohio in the Forty-eighth Congress. He was elected to Congress in 1882, defeating Benjamin Butterworth. At the end of this term he was renominated, but was defeated, sharing the fate of the party in the Presidential election of that year.

Mr. Follett was one of the most enthusiastic supporters of the Democratic party in Cincinnati and was actively engaged in all the campaigns of his party. He was the senior member of the law firm of Follett, Kelly & Follett. The junior member is his son, John D. Follett. Another son, Charles Follett, graduated at the Cincinnati Law School in 1898 and is also connected with the firm. Mr Follett was 71 years old.

## Humor of the Capitol

[Special Correspondence.]

Washington, April 14.—The Congressional Fishing club, held a meeting in the marble room the other day and made arrangements for an outing on the first favorable opportunity. Among the most enthusiastic members of the club is Senator Frye of Maine, who is never quite so much at peace with all the world as when "welling a line" in one of the lakes of his native state. He is never so happy as when, attired in a pair of blue overalls hatched up close to his shoulders by real old fashioned

THE ROD POINTED STRAIGHT UP IN THE AIR.

"galluses" and with an old slouch hat shading his classic brow, he is landing a big trout. The spring in his blood stirs his instinct to fish. He said the other day to Senator Proctor.

"This will be an early spring, and soon the ice will be out of the Maine lakes, and then I am going fishing."

The Vermont senator is also an ardent devotee of the rod and reel. He will travel almost any distance to find good fishing. Senator Platt of Connecticut is another great fisherman. Among the most skillful and experienced followers of this sport in the house are Speaker Henderson and Representative Cannon of Illinois.

Senator Blackburn of Kentucky, who is also a good fisherman, tells this story on Senator Frye and vouchers for its authenticity:

"Senator Frye's specialty runs to fly fishing and casting from a moving canoe," said the Kentucky senator, "and he does not know much about 'still fishing'—that is, fishing with live minnows from an anchored boat."

"Well, one day last fall we were fishing on the Potomac, anchored under the lee of a projecting point of land."

"Just watch me cast a minnow," said Senator Frye as he sent the bait whizzing far out into the river. Hardly had the minnow struck the water before the line paid out and the reel began to sing.

"It's a five pounder!" cried the boatman. "Let him run, senator, let him run!"

"Well, then there was excitement. The reel kept a-singing the prettiest music in the world to a fisherman. Finally the line was all run out, and, much to the senator's surprise, the rod was pointing straight up in the air instead of toward the water. The old boatman pretty nearly fell in a fit in the bottom of the boat with laughter, for there up in the sky soared a wild duck with the senator's minnow."

"Pull up," said the senator in disgust, "and let's go back to the clubhouse. I'll fish in the rain barrel off the porch with 'Uncle Joe' Cannon and Dave Henderson for the rest of this trip."

The discussion of the oleomargarine bill in senate and house has furnished opportunity for many glowing tributes to the American cow, among the most eloquent of which have been

those of Senator Dabner of Iowa and Representative Dougherty of Missouri. No senator except Spooner of Wisconsin who spoke in favor of the bill failed to get poetical either about the cow or about butter. Senator Spooner's colleague, Quarles, had his turn shortly before the passage of the bill.

"Ah, Mr. President," said Senator Quarles, "butter, butter! It is distilled in the crucibles of nature under the summer sky in field and meadow where the lolo-bink and the bee practice their sweet incantations."

Then came Senator Spooner. "I am no demagogue," he said. "I shall not posture about the cow. I wasn't born down on the farm and I probably know less about farming than any man in the senate."

This avowed showed that eminent agriculturist, Senator Dexter, who, bucking up a reproachful finger said:

"It cuts me to the quick that any

member of this body should actually boast of his unfamiliarity with agriculture. Why, I was the granger candidate for president one happy time!"

The other morning before the opening of congress the pages of the house of representatives held a mock session of the house. Electing the oldest pages speaker and organizing with much formality, messages were received from the president and the senate in strict parliamentary form, and a resolution was unanimously adopted increasing their salaries from \$75 to \$85 a month.

The proceedings were interrupted by Jerry Constantine, a house telegraph operator, who appeared on the floor waving a dollar bill and demanding recognition.

"I move that the gentleman's bill be laid on the table," said a boy from Ohio. The motion prevailed, and Constantine was dragged to the bar of the house and forced to act in accordance with the motion.

The difference between the McKinley and Roosevelt administrations from an office-seeker's point was aptly illustrated by a member of the cabinet a day or two ago.

During the McKinley administration, he said, a western public man called with a friend at the White House to request the president to give him a diplomatic appointment. He saw the president and a few moments later came from the room with a smiling face.

"I think," he said, "I'll get the place. The president has invited me to luncheon."

"Don't you believe it," his friend replied. "It is a proverb of this administration that when McKinley invites to luncheon you get nothing more."

President Roosevelt invited William Williams of New York to lunch with him at the White House a few days ago.

"Does the McKinley proverb hold good in Williams' case?" asked an official who knew of the invitation.

"Not altogether," was the response. "Williams may get a piece of pie as a dessert."

And, sure enough, he did, as he was on the following day offered the post of commissioner of immigration for the port of New York.

Representatives Cooper and Burleson of Texas were in the house barber shop the other day. Mr. Burleson had difficulty in arranging his necktie.

"I'd like," he said, "to choke the barberdasher who sold me this tie."

Cooper gave a long whistle. "Haberdasher!" he repeated. "Why, Burleson, there isn't a man in your district who knows what a haberdasher is, and you didn't know yourself until you came to Washington."

"That may be true," replied Burleson, "but it proves that I am nothing if not progressive."

An incident occurred in the marble room which caused the uninitiated who witnessed it to infer that there would be another "senatorial altercation."

Senator Frye and Senator Bacon had placed their silk hats on the same table. When Senator Frye started out, he grabbed the headgear of the senator from Georgia. Shortly after Senator Bacon managed to tear himself away from a long winded constituent and picked up the remaining hat on the table.

Trouble began when Senator Bacon attempted to adjust the hat to his

head. All efforts in this direction were futile. The hat was several sizes too small, and it was all he could do to balance it on his head. Looking down the corridor, he spied Senator Frye, with his head nearly concealed in a hat of large dimensions.

"You have stolen my hat!" the Georgia senator called out in an excited tone, which brought Senator Frye to an immediate halt.

"It strikes me the shoe is on the other foot," was Senator Frye's reply as he caught sight of his own hat perched at a precarious angle on Senator Bacon's head.

"Well, we'll call it even and swap back," said the Georgia senator.

"And I won't say anything about anybody having the big head," added the senator from Maine.

## BURIAL

OF DR. TALMAGE TAKES PLACE  
IN BROOKLYN.

IMPRESSIVE CEREMONY LAST  
EVENING AT WASHINGTON.

Friends of the Dead Minister Take  
Turns in Eulogizing His Memory.  
The Service.

Washington, April 16.—The burial of the remains of Rev T. DeWitt Talmage took place at Greenwood cemetery in Brooklyn this morning, after services conducted by Rev. Dr. Howard Suydam, of Rhinebeck, N. Y.

Funeral services were held at the Church of the Covenant here yesterday afternoon. The large church was crowded to the doors.

The funeral ceremony began at five o'clock and occupied over an hour. Rev Dr. Teunis S. Hamlin, pastor of the Church of the Covenant and Rev. Drs. Thomas Chalmers and James Demarest, S. J. Nichols and James Demarest, both of Brooklyn, officiated.

The casket rested immediately in front of the pulpit, and over it was a massive bed of violets. The floral offerings were numerous, mostly of lilies of the valley and white roses, including a wreath sent from the White House by President and Mrs. Roosevelt.

The members of the stricken family occupied pews on the right, while across the aisle from them were the honorary pallbearers—Justices Harlan and Brewer of the United States Supreme bench, Senators Cullom, Ill., Burrows, Mich., and Dooliver, Iowa; Representative William Allen Smith, Mich., ex-Secretary of State John W. Foster, Rev. Drs. Louis Klopach of New York and Bittinger and Fiske of this city, Dr. G. L. Magruder of this city, E. H. Branch and F. M. Lawrence, life long Brooklyn friends of the dead minister, and B. H. Warner of this city.

After the family had entered the male quartet sang "Lead, Kindly Light," a favorite hymn of Dr. Talmage, and during the services sang "Beyond the Smiling and the Weeping," and "It is Well With My Soul."

Dr. Hamlin in his address pictured Dr. Talmage as one of the great clergymen of the century. He said that Dr. Talmage in his marvelous word pictures, always bespoke hope and cheer, that he aimed at the hearts and emotions of the people instead of at their intellect.

Dr. Demarest referred to the student life of the deceased. He said Dr. Talmage sometimes had been charged with being sensational, but he was sensational because he must be, and it was natural. He had in his early college life shown the same marks of brilliant meteoric genius that won his way through great achievements in the later life.

Dr. Easton protested that it was yet too early to measure Dr. Talmage; that death clears our vision removes or minimizes our prejudices and reduces the supposed faults. He said that Dr. Talmage was made of the stock from which martyrs spring, and that no man had lived so apostolic a life since the days of Paul. He said that Beecher, Spurgeon and Talmage were the three greatest preachers of the century, but that the last named was the prince of the pulpit.

Dr. Nichols referred to the dead man's philanthropic deeds and characterized him as a brave heart and noble soldier of the cross.

Dr. Hamlin closed the service with a prayer, asking the Divine mercy and consolation for the stricken family.

Then the immediate relatives, first Mrs. Talmage, leaning on the arm of her eldest son, Rev. Frank Talmage of Chicago, Mr. and Mrs. Clarence L. Wycoffe of Utica, N. Y., Mr. and Mrs. Mangum, New York; Mr. and Mrs. Donnan of Richmond, and others of the family following passed to their carriages.

New York, April 16.—The remains of the Rev T. DeWitt Talmage arrived here this morning from Washington and were immediately conveyed to Greenwood cemetery, Brooklyn, where interment took place in the Talmage family plot. The grave was opened between those of the two former wives of the famous clergyman.

### GAME BILL PASSES HOUSE

OPEN SEASONS ARE FINALLY AGREED UPON.

Senate Has Yet to Act on the House Amendments—Measure is Not Yet a Law.

Columbus, Ohio, April 16.—The Archer game bill was passed by the House yesterday afternoon, but the Senate has yet to act upon the House amendments. Some assert that the measure is now practically a law inasmuch as the Senate will concur in the amendments but on the other hand there are others who say the commission prefers the present law and that the Senate may not agree to the House amendments. In the House there was little debate on the bill, a few amendments being offered and the measure was partly restored to its original form.

The gun license feature is eliminated except as it applies to non-resident hunters who must pay a fee of \$25.

Trot-line fishing is prohibited in reservoirs and lakes, but not in rivers. Bass fishing is prohibited between May 1 and July 1, and bass cannot be sold at any time. No fish can be caught through a hole in the ice. Turtle may be caught only in nets with meshes 5x5 inches.

Insectivorous and song birds are fully protected, other than game birds, and excepting the chicken hawk, blue hawk, crow, great horned owl and English sparrow.

The open seasons provided are: Quail, wild turkey, Nov. 10 to Dec. 1; woodcock and squirrel, August 1 to September 1; rabbits (by gun) Nov. 10 to Dec. 1; mall, plover and snipe, Nov. 10 to Dec. 1; and March 10 to April 20; wild duck, wild goose, swan, coot, mudhen, Sept. 15 to Dec. 1, and March 15 to April 20; prairie chicken, grouse, pheasant, are fully protected until Nov. 10, 1904. Farmers can kill rabbits and squirrels on their own lands at any time when they are doing any injury to crops or trees. Quail must be shot on the fly. pot hunting being forbidden.

A day's hunting is limited to 18 quail, woodcock, geese, plover, and snipe; 25 duck, 10 squirrel, 6 pheasants, prairie chickens or grouse.

Bird farms are not permitted. Schoolteachers are required to read to their pupils once a week a year the section of the game law protecting song birds. Squirrels can be kept as pets. Game wardens are given power of search in cold storage warehouses, etc.

A number of amendments were declared out of order and the bill was passed by a vote of 44 to 29.

The measuring machine made by Sir Joseph Whitworth will measure one-millionth of an inch, and will show the expansion of an inch-long bar of metal if touched by the finger.

The eye of a fly is so constructed as to bring the entire horizon within his circle of observation—a fact which explains the extreme alertness of these insects in escaping attack.

### CROP BULLETIN

Wheat Good Say the Reporters—First Bulletin Issued at Columbus Office This Spring.

The first weekly weather bureau climate and crop service, Ohio section, issued Tuesday shows that for March the temperature averaged above normal, with several cold periods. The precipitation was a little below normal, the greatest deficiency being in southwestern and northwestern counties.

There was a marked improvement in the condition of wheat in all sections of the state, the precipitation during the last ten days of the month being of much benefit. The wheat plants while being generally small were starting up nicely. Fields that a few months ago were quite brown began showing a good color.

Farm work progressed satisfactorily and much plowing was done. Oat seeding was commenced and in some portions of the state half of the crop was sown by the close of the month. Considerable barley was sown in the northwestern counties. Early potatoes were being planted and gardens being made at the close of the month.

Fruit trees started slowly, peach buds were considerably winter killed, but other fruits were quite promising.

April weather so far has been colder than usual with sufficient precipitation except in the southwestern counties. Farm work has progressed slowly during the past two weeks. March oats are coming up slowly. Some improvement in wheat is reported: rye is in good condition.

### SPANISH WAR

National Legislation in the Interest of the Comrades in the Late War With Spain.

S. 3031.—A bill granting extra pay to certain officers and enlisted men of the United States volunteers. Be it enacted, etc., that all officers and enlisted men of volunteers, war with Spain, who served honestly and faithfully, and were honorably discharged for any cause after August 12, 1898, date of the protocol, shall be allowed the extra pay provided by act of January 12, 1899, entitled "An act granting extra pay to officers and enlisted men of the United States volunteers" notwithstanding such officers and enlisted men were placed on furlough or waiting orders prior to their discharge, provided the same has not already been paid; Provided, that any overpayment or other indebtedness to the United States on account of the services of any officer or enlisted man shall be deducted from the extra pay allowed.

The bill is of especial interest to the members of Company G, of the 7th U. S. S. V. I. and Battery G, which served in the Spanish-American war, for it will, if passed, entitle each member to an extra month's pay from the United States.

### ON BROADWAY

Electric Road at Granville Was Permitted to Put in a Short Switch. Work Begun in Night.

Granville, O., April 16.—Considerable excitement was created here yesterday by the action of the Newark & Granville Electric Railway Company in attempting to put in a switch on Broadway, between Elm street and the Opera House building. On Tuesday night about midnight, a large gang of men was brought here from Newark, and put to work excavating for the new switch. Ties and iron were also distributed along the tracks. When the people arose yesterday morning and came out on the street they were horrified to see their beautiful Broadway all torn up. An indignant protest against the tearing up of the street was immediately made by a number of the citizens and a stop was put to the work until the matter could be investigated. The company was allowed to proceed with the work, but will only be permitted to put in a short switch, whereas the company contemplated putting in a long switch that would accommodate quite a number of cars.

### RESIDENT COMPLAINS.

There is a gang of boys who have been making a practice of gathering at the corner of Jefferson and Sixth streets in and about an old house which stands near. The noise they make and the language they use is terrible. They keep it up till 11 and 12 o'clock at night. Can't there be something done or do the people have to put up with it? A RESIDENT.

## Rheumatic Warped Limbs.

To suffer the most excruciating pain, to lose the use of limbs, and to have the joints swollen and disfigured is the lot of the victim of rheumatism. Uric acid in the blood is the cause of rheumatism. If the kidneys are active, they remove the uric acid. That is their special work. If, on the other hand, the kidneys are deranged, there is sure to be uric acid in the blood and rheumatic pain throughout the body. No amount of liniment will ever cure rheumatism. It sometimes relieves, but cure can only be brought about by setting the kidneys right. The most effective kidney remedy known to man is Dr. A. W. Chase's Kidney-Liver Pills. They cure

## IN CELERY'S HOME.

PEAT LANDS OF CALIFORNIA RAISE THE WORLD'S GREATEST CROP

Now a Quick Witted Man Made a Fortune by the Use of His Eyes Different Phases of the Cultivation of the Succulent Vegetable.

(Special Correspondence.)  
Smeltzer, Cal., April 9.—Today people in New York, Philadelphia, Boston, Baltimore, Washington and a hundred other cities in the east are eating celery raised in the great tule swamp of this district. The majority doubtless imagine that the celery they buy in the markets or from their tradesmen is a local product, but in most cases such is not the fact. It has been hauled thousands of miles, from the Pacific to the Atlantic coast.

More than twenty carloads a day are being shipped from the celery fields around Smeltzer. The season's output will be fully 1,200 cars. Each car holds 150 crates, and each crate contains six dozen stalks, so it will be seen that the

BANKING CELLIST, SOUTHERN CALIFORNIA product of the swamp this year will be nearly 13,000,000 stalks. This will bring in the markets more than \$300,000, fully one-half of which will find its way into the pockets of the growers. Behind all this is an interesting story—the story of how a great bog was converted into a profitable truck farm.

Some nine years ago a man from the east came to Santa Ana, where he saw Mexicans and Chinese hauling wagon loads of dried peat about the town and selling it for fuel. The stranger had never heard of the great peat bog at Smeltzer, but he asked some questions and learned all about it. Then he came down here and saw it for himself. At once he began purchasing all the swamp land he could buy.

Public opinion was divided regarding the stranger, the majority voting him insane. Nevertheless the owners of the swamp made haste to profit by his supposed mental infirmity and unloaded most of the bog upon him. Some of them, however, retained a part just to see if the stranger had any rational reason for buying the supposedly worthless real estate. Now they are congratulating themselves for having done so. Most of the swamp land went for less than \$5 an acre, while today it is worth \$400 an acre, and 3,000 acres are under cultivation.

The man from the east had seen an opportunity and had grasped it. Strong soil is required to raise good celery year after year, and this is just what the soil of the peat swamp is. For hundreds and thousands of years the ruins of the winter have carried down to the swamp the vegetation of the mountains mixed with the mountain soil. In this natural basin the vegetation has decayed to sink beneath the next layer brought down from the "everlasting hills." This nature has formed one of the best soils available for the purpose for which it is now being used.

Of course much labor was required to put the great swamp into shape for tillage, but the stranger from the east was equal to the emergency. Skillful drain tiles finally effected the desired result, and in a wonderfully short time the first crop of celery was garnered. Chinese and Japs do most of the work on the celery farms, not so much because oriental labor is cheaper than white, but because the white man cannot stand the heat. The planting begins in June and continues to August, when the malarial exhalations from the untouched swamps combined with the summer sun would lay white men hors de combat.

The cultivation of the celery is in itself an interesting process. A week or two after the plants have been set the laborers go through the patch and press the dirt around the celery in such a way as to cause the stalks to grow upright and close together. This process is repeated two or three times, and then the bankers, as the two shared plows are called, are put into the field, and the soil is thrown up against the plants, burying all but the tops. As the stalks push upward the banking is repeated, and they are thus kept bleached and tender till it is time for the cutting. This is done with horse power also. So rapidly do the machines do the work that not more than five teams and machines are needed to harvest the crop from the entire 3,000 acres.

Behind the cutters comes a small army of Celestials, who take the severed stalks by the tops, lift them from the earth and, with rapid and skillful movements, shake the dirt off, trim the roots and tops with knives made for the purpose and lay the stalks to one side of the row, where the packers find them, tie them into bundles and put them in crates for shipment to the east.

## WARNING

Sent to Minister—Horace Greeley's Grandchildren in Danger of Being Kidnaped.

New York, April 16.—The Journal this morning says that the Rev. Dr. F. M. Clendenin, rector of St. Peter's church in West Chester, received a warning that his two children, the grandchildren of Horace Greeley, are in danger of being kidnaped. Dr. Clendenin has among his parishioners most of the wealthy New Yorkers who have big country houses on Long Island Sound and is himself rated as a millionaire.

Despite the pastor's own wealth and the quality of his congregation he is a worker among the lowly, and for this reason many criminals know him and the conditions among which he lives. It is believed that some of them hatched the plot that was revealed by one of their number in gratitude for the efforts of this rich worker among the poor.

Dr. Clendenin married Gabrielle Greeley, the youngest daughter of the editor, and a great beauty. They have two children, Gabrielle, 8 years old, and Muriel, who is 3.

## MODES OF THE DAY.

Some Seasonable Guess About Things to Wear.

(Special Correspondence.)  
New York, April 11.—Spring has scarcely opened yet, at least so far as the wearing of the garments made and provided is concerned, and summer dresses are shown everywhere in the place or made up. Not only that, but we are now permitted to learn all about the fall goods—that is, if one is an early bird. And it is a good plan, to know what is to be so that one may during the long delicious days of summer be thinking of the fall goods with a view to the combinations which fashion now says we may use.

For quite a long time gowns have been made of one material only, but now I present one of the latest of the combination suits, wherein cloth of two distinct kinds is used. This suit is made of the always pretty and serviceable silk warp hemstitch in light gray, with the combination in Shepherds' check in poplin. The check is made of fine lines of ivory over a green ground, with somewhere a tiny line of pink, a very unobtrusive line. Around the bottom is a straight piece of the checked stuff, and the vest and wide revers and the deep cuffs are all faced with it. It makes a very stylish suit. The plaid could be left off and plain goods put in its place if the colors were well chosen.

I noticed another suit made in combination which is worth mention. The waist portion was in the form of a blouse, with a chemisette and rather wide revers. The dress was made of black melrose, and the skirt was cut off in deep vandyke points and edged with a rich galloon in the form of wheels, the large ones at the bottom of the points and smaller ones at the top. One line went quite to the waist at the left side of the front. The apex of these points reached to the knees, and below that time skirt was one cut like a shaped pouce and made of black satin.

The house was made of the melrose and cut away to allow for a satin trim bordered by the galloon trimming. This was finished with the revers, which were of melrose faced with satin. The chemisette was of white chiffon shirred closely and with a cravat of the same edged with a very narrow ruche. The sleeves were snug and of the melrose, with a row of the galloon at the wrists and another just below the elbow.

Speaking of sleeves reminds me to mention the awful inventions in the way of sleeves seen on some of the gowns. They bag down and puff out to such an extent that they are apt to think that they are some of the old leg o' mutton sleeves worn upside down for economy. They are simply hideous and not any too safe when near a flame. To sum up the sleeve question one may say all cotton sleeves are made in bishop shape and all sleeves to tailored garments are snug at the top and belled more or less widely at the bottom. Few have undersleeves of this material, for where there is any kind of undersleeve effect it is wrought

NEW COMBINATION TAILOR SUIT.

of the dress material or some rich and heavy combination. Satin, silk and more velvet are all used.

The new spring capes are now out in force, and one noticeable thing is that few have any collars, as the neck is cut a little above the body and is finished there with a ruffle of black lace. They are all cut V shape in front. Two elegant capes were both of thick plain de sole, black of course. One had a lapelling of silk mull at the bottom six inches deep.

It is astonishing the amount of fancy braids now used on almost every garment. There is nothing so fine that brand is not produced fine enough to embellish it and nothing so plain that some kind of brand is not made especially to fit the case. Jackets, blouses, cloaks, dresses, for every occasion, even some for dancing, have I seen with narrow silk peccot edged brand along the places best adapted for such ornamentation. Blouses and jackets, children's garments and even some hats are ornamented with it. Between braided and straps stitched to the garments in several lines one's heart balances in these days. There is very much of the strapped bandwork on many of the hand-ornament of the tailored suits.

Pe-ru-na a Prompt and Permanent Cure for Nervousness.

Mrs. Anna B. Fleharty, Galesburg, Ill.

Mrs. Anna B. Fleharty, recent superintendent of the W. G. T. U. headquarters, at Galesburg, Ill., was for ten years one of the leading women there. Her husband, when living, was first President of the Nebraska Wesleyan University, at Lincoln, Neb.

In a letter written from 401 Sixty-Seventh Street, W., Chicago, Ill., Mrs. Fleharty says the following in regard to Peruna:

"Having lived a very active life as wife and working partner of a busy minister, my health failed me a few years ago. I lost my husband about the same time, and gradually I seemed to lose health and spirit. My daughter is a confirmed invalid, and we both felt great need of an invigorator.

"One of my neighbors, advised me to try Peruna. A bottle was immediately secured and a great change took place in my daughter's, as well as in my own health. Our appetites improved very greatly, the digestion seemed much helped, and restful sleep soon improved us, so that we seemed like new women.

"I would not be without Peruna for ten times its cost."—MRS. ANNA B. FLEHARTY.

Peruna never fails to prevent nervous prostration if taken in time.

## THE DAY'S NEWS FROM GRANVILLE

NOW EXPECTED THAT THE SIGS WILL BUY PROPERTY.

New Gymnasium to be Built—Wooster and Denison Debate—A Resignation—Personals and Notes.

Granville, O., April 16.—As announced in the Advocate yesterday the Downer house has been purchased by the S. S. Chamberlain Association of Phi Gamma Delta for a chapter house. The incorporators are: Chas. H. Bosler and W. A. Chamberlain of Dayton, Clark B. Hatch and Chas. W. Montgomery of Newark, and Chas. K. Chapman of the Freshman class of the university.

While the fraternity will not take possession till August 15, there will be a formal dedication at the commencement season when many prominent alumni will be present.

It is now rumored that the Sigs will buy the Kerr residence on Broadway, which they have been renting for several years. The Betas already possess a house so next year all the Denison fraternities will probably be in their own houses.

There is a general movement of the fraternities throughout the country to secure chapter houses. The Downer property with its stately Doric architecture is probably the most conspicuous residence in the village and will make a fine home for the chapter members.

A large part of the funds for the purchase was donated by the Dayton alumni.

At a meeting of trustees of the university Monday President Hunt in his report strongly recommended the construction of a large gymnasium for the school. The matter was actively discussed and definite plans considered which will secure the much needed building in the near future.

It was also decided to place a pipe organ in Recital Hall of the Conservatory of music before the commencement week.

The resignation of Miss Mary A. Stevens, instructor of English Language and Literature in Shepardson, was read and accepted. Miss Stevens has taught in Shepardson since 1897. The Y. W. C. A. of Shepardson will entertain this evening in Burton hall the members of the Y. M. C. A. of the college.

Rev. J. M. Forman, secretary of the Student Volunteer Movement of America, has addressed two meetings of the students this week. Mr. Forman has just returned from a missionary tour of ten years in India.

The Wooster-Denison debate will be held in Granville on May 30. The question for debate is "Resolved, That the enfranchisement of the negro was a justifiable act of legislation." Denison will debate the negative.

Mr. Paul Mitchell son of Dr. J. A. Mitchell of Newark, has entered the Senior academy class.

## JONAS HOWARD

Father of Attorney R. W. and Dr. G. T. Howard Passed Away on Tuesday Afternoon.

Jonas M. Howard died at his home on North Fourth street at 2:15 on Tuesday afternoon, after an illness of three years. He was born in Westmoreland county, Pa., January 9, 1830, and came to Ohio in November, 1859. He joined the Methodist church at Jackstown in the same year and was married to Margaret Wylie December 27th, 1860. Of this union two sons, Dr. G. T. and R. W. Howard of this city, and two daughters, both of whom have preceded him to the spirit land, were born. He was a life-long Democrat and was the only Democrat that attended church at Jackstown during the year in 1862. He was aged 72 years, 3 months, and 6 days. He moved to Newark in September 7, 1898, where he has resided ever since. The funeral will be held at the Methodist church at Jackstown, on Thursday at 2 o'clock p. m. and Rev. T. T. Buell will officiate.

Columbus, O., April 16.—The osteopathic bill was made a law by the Senate yesterday afternoon. There were only four votes against it. Senator Hoses, of Hamilton county, opposed the bill. The osteopathic profession is now recognized by the state. The bill provides that the State Board of Medical Registration and Examination shall examine applicants in anatomy, physiology, obstetrics and physical diagnosis after they have passed an examination by an osteopathic examining committee in pathology, physiological chemistry, gynecology, minor surgery, osteopathic diagnosis, principles and practice of osteopathy. The Osteopathic Examining Board is to be appointed by the State Board of Medical Registration and Examination. The bill was agreed to by doctors and osteopaths.
